

I dont know how to put into words what K-Love means to me other than to say, that it has truly saved my life. I have struggled with depression all my life, and K-Love has been the connection to keep me going. Just as i am ready to give up on life, they play a song that speaks "Life" into my soul....and reminds me that God loves me sooo deeply that if i was the only person on earth..He would have still died just for Me....wow...what a thought huh??? What an awesome God we have, dont you think???

Please consider keeping K-Love on the air so that it can continue to be used as a life chain to those who dont have anything else to turn to.

Many Thanks~Christa Cooley
